

**Alice Bendix Gottlieb MD, PhD****Summary of Curriculum Vitae**

Dr. Gottlieb is an internationally recognized expert and leader in the field of psoriasis and psoriatic arthritis. In March, 2006, she joined Tufts Medical Center as its Chair of Dermatology and Dermatologist-in-Chief of the hospital, and as the Harvey B. Ansell Professor of Dermatology at Tufts University School of Medicine. She is the former Professor of Medicine and Founding Director of the Psoriasis Center of Excellence at UMDNJ-Robert Wood Johnson Medical School. Her research using targeted immunobiologics as pathogenic probes, provided new understanding of the pathogenesis of psoriasis and provided the foundation for biologic drug development in psoriasis and psoriatic arthritis. Her translational research provided the first double blind, randomized, placebo-controlled study of the efficacy of TNF blockers as monotherapy for moderate to severe psoriasis (published in *Lancet* in 2001). This work led to multiple TNF blockers being FDA-approved for psoriasis. TNF blockers have revolutionized the care of psoriasis and psoriatic arthritis patients. She has authored over 270 peer-reviewed articles that have appeared in journals such as *The Lancet*, the *New England Journal of Medicine*, *Nature: Drug Discovery*, *Proceedings of the National Academy of Sciences*, *Journal of Experimental Medicine*, *Archives of Dermatology*, the *Journal of the American Academy of Dermatology*, and *Journal of Investigative Dermatology*. She has presented her research at more than 200 dermatology and rheumatology conferences in Europe, Asia and the United States, as well as at the FDA and the National Academy of Sciences. She is on almost every list of outstanding doctors, including Best Doctors in America and Best Doctors in Boston. She is triple boarded in dermatology, rheumatology and internal medicine, and is one of only a handful of doctors in the United States to be certified in all three of these specialties. Dr. Gottlieb has received numerous awards for mentoring and teaching including Excellence in Teaching Award from the Department of Dermatology at Tufts University Medical School/Tufts Medical Center, Honorary Membership in Alpha Omega Alpha in recognition of medical student teaching, a Research Mentorship award from the Internal Medicine house staff and a Mentorship Award from the American Chemical Society for mentoring minority high school students in bench and clinical research. Dr. Gottlieb was elected to the Board of Directors of the American Academy of Dermatology for 2011-2015. Dr. Gottlieb is a member of the American Dermatological Association and Noah Worcester Dermatology Society amongst other professional societies. She is the founder and Chairman of the Board of the International Dermatology Outcome Measures (IDEOM) group. This consortium of patients, physicians, pharmaceutical scientists and other stakeholders is dedicated to bring clinically practical outcome measures to dermatologic practice that satisfy the needs of all stakeholders.

She was one of the first scientists to demonstrate that psoriasis is a T cell mediated disease. She initially demonstrated increased numbers of activated T cells and increased expression of a number of immunologic cytokines in psoriatic plaques (reported in multiple publications, e.g., the *Journal of Experimental Medicine*, *Proceedings of the National Academy of Sciences*). She then showed that treatment with a T cell-specific immunotoxin cleared psoriasis clinically and histologically (published in *Nature Medicine* and noted in commentary in *The Lancet*). Dr. Gottlieb, through her published studies and public presentations, has convinced a number of pharmaceutical companies to use psoriasis as their proof-of-concept disease when testing new immunomodulators that may decrease T cell and dendritic cell cytokine production. Thus, her work has affected drug development in psoriasis, psoriatic arthritis, rheumatoid arthritis, inflammatory bowel disease and transplantation. As a direct result of Dr. Gottlieb's work, many biotechnology-engineered immunomodulators are FDA and /or EMEA-approved for psoriasis and psoriatic arthritis. In 2001, she received the American Skin

Association's Psoriasis Research Award in recognition of her work. In 2006, she received the Honorary Fellowship Award of the American College of Clinical Pharmacology. Currently, Dr. Gottlieb's research centers on developing new treatments for psoriasis and psoriatic arthritis, developing better outcome measures for psoriasis and on understanding the mechanisms of action of these novel agents. Additionally, she is working on initiatives to prevent disability due to psoriatic arthritis and to develop outcome measures useful to all stakeholders and useful in clinical practice.

Dr. Gottlieb obtained her MD from Cornell Medical School and her PhD in Immunology from the Rockefeller University, where she studied in the laboratory of Henry Kunkel and was one of the first females admitted to Rockefeller University's joint MD-PhD program. She has also been a leading educator in her specialties, and has been on the forefront of mentoring female and minority students and overseeing community outreach and patient advocacy programs. She is active in the autoimmune disease community as a councilor of the International Psoriasis Council and a member of the Executive and Steering Committees of GRAPPA (an international psoriatic arthritis coalition), Medical Advisory Board member and Co-Editor of the Psoriasis Forum, the physicians' newsletter of the National Psoriasis Foundation. She is a member of the Board of Directors of the American Academy of Dermatology.

<b>March 13, 2006 - Present</b>	<b>Chair of Dermatology and Dermatologist-in-Chief at Tufts Medical Center, Boston, MA</b>
	<b>Harvey B. Ansell Professor of Dermatology, Tufts University School of Medicine</b>
<b>October 31, 2006-Present</b>	<b>Professor of Dermatology, Clinical Research, Sackler School of Graduate Medical Sciences at Tufts University School of Medicine</b>
<b>October 1, 2011-Present</b>	<b>Professor, Tufts Clinical and Translational Science Institute</b>
<b>January 25, 2006- 2012</b>	<b>Clinical Professor in the Dept. of Dermatology and the Dept. of Molecular Genetics, Microbiology and Immunology at UMDNJ-RWJMS, New Brunswick, NJ</b>

Highlighted Accomplishments:

- Appointed to the Medical Advisory Board, National Psoriasis Foundation
- Awarded the Faculty Award of Appreciation by the Tufts Medical Center Department of Dermatology Residents "In recognition of your commitment and dedication to the past and present residents in our department", June 12, 2014.
- Founder and Chairman of the Board of IDEOM, the International Dermatology Outcomes Measures organization
- Appointed to the AAD's Ad Hoc Task Force on Data Collection Platform and Registries (AHTF), 2014.
- Awarded Best Doctors in America 2014
- Selected as a Castle Connolly's Top Doctor 13<sup>th</sup> Edition
- Honorary Fellow of the American College of Clinical Pharmacology, 2014
- Elected to the Executive Committee, GRAPPA, 2013
- First Prize Winner, Poster Exhibits at the AAD annual meeting, Miami, 2013
- Awarded Boston Super Doctors 2013
- Best Doctors in America, 2013

- 2007, 2008, 2009, 2010, 2011, 2012, 2013 Best Doctors, selected by Boston Magazine
- Listed as Top Doctor in US News and World Reports, 2012
- Member, Ad Hoc Nominating Committee, American Academy of Dermatology
- Member, Workgroup on CMSS Code for Interactions with Companies of the AAD
- Member, AAD Workforce Task Group
- America's Top Doctors Castle Connelly 12<sup>th</sup> edition, 2012
- Member, Ad Hoc Task Force on Perceptions of Dermatology (AHTF). American Academy of Dermatology.
- Member, Research Agenda Committee, American Academy of Dermatology
- Member, Poster Review Task Force, American Academy of Dermatology
- America's Top Doctors Castle Connelly 11<sup>th</sup> edition, 2011
- Best Doctors in America 2011-2012
- Listed as a Top Doctor in US News and World Reports, 2011
- Listed in 2011 Boston Super Doctors, featuring approximately 5% of physicians in the Boston area.
- 2011 Selected as one of America's Top Doctors in the 10<sup>th</sup> Edition of the Castle Connelly Guide
- Excellence in Teaching Award from the Department of Dermatology at Tufts University School of Medicine/Tufts Medical Center, June 16, 2010
- Elected to the Board of Directors of the American Academy of Dermatology for 2011-2015
- Best Doctors in America 2010-2011
- 2010 Selected as one of America's Top Doctors in the 9<sup>th</sup> Edition of the Castle Connelly Guide
- 2010 Who's Who in America
- 2009 Who's Who in America
- Winner, Third Place in the American Academy of Dermatology's 6<sup>th</sup> Annual Poster Exhibit Award competition
- 2007-2008 Best Doctors in America
- 2006-2007 Who's Who in Medicine and Healthcare
- 2006-2007 Who's Who in America
- 2006 Received the Honorary Fellowship Award of the American College of Clinical Pharmacology
- 2006-present Honorary Fellow of the American College of Clinical Pharmacology
- Selected as one of "America's Top Physicians" 2006 by the Consumers' Research Council of America
- Member, Medical Advisory Board, National Psoriasis Foundation
